## Data sheet

## 3RW4046-1BB04

SIRIUS soft starter S3 80 A, 45 kW/400 V, 40  $^\circ\text{C}$  200-480 V AC, 24 V AC/DC Screw terminals

General technical data					
product brand name		SIRIUS			
product feature					
<ul> <li>integrated bypass contact system</li> </ul>		Yes			
thyristors		Yes			
product function					
<ul> <li>intrinsic device protection</li> </ul>		Yes			
<ul> <li>motor overload protection</li> </ul>		Yes			
<ul> <li>evaluation of thermistor motor protection</li> </ul>		No			
external reset		Yes			
<ul> <li>adjustable current limitation</li> </ul>		Yes			
inside-delta circuit		No			
product component motor brake output		No			
insulation voltage rated value	V	600			
degree of pollution		3, acc. to IEC 60947-4-2			
reference code according to EN 61346-2		Q			
reference code according to DIN 40719 extended according to IEC 204-2 according to IEC 750		G			
Power Electronics					
product designation		Soft starter			
operational current					
• at 40 °C rated value	А	80			
• at 50 °C rated value	А	73			
• at 60 °C rated value	A	66			
yielded mechanical performance for 3-phase motors					
• at 230 V					
- at standard circuit at 40 °C rated value	kW	22			
• at 400 V					
- at standard circuit at 40 °C rated value	kW	45			
yielded mechanical performance [hp] for 3-phase AC motor at 200/208 V at standard circuit at 50 °C rated value	hp	20			
operating frequency rated value	Hz	50 60			
relative negative tolerance of the operating frequency	%	-10			
relative positive tolerance of the operating frequency	%	10			
operating voltage at standard circuit rated value	V	200 480			
relative negative tolerance of the operating voltage at standard circuit	%	-15			
relative positive tolerance of the operating voltage at standard circuit	%	10			
minimum load [%]	%	20			
adjustable motor current for motor overload protection minimum rated value	А	43			

continuous operating current [% of le] at 40 °C	%	115		
power loss [W] at operational current at 40 °C during operation typical	W	12		
Control circuit/ Control				
type of voltage of the control supply voltage		AC/DC		
control supply voltage frequency 1 rated value	Hz	50		
control supply voltage frequency 2 rated value	Hz	60		
relative negative tolerance of the control supply voltage frequency	%	-10		
relative positive tolerance of the control supply voltage frequency	%	10		
control supply voltage 1 at AC				
• at 50 Hz rated value	V	24		
• at 60 Hz rated value	V	24		
relative negative tolerance of the control supply voltage at AC at 50 Hz	%	-15		
relative positive tolerance of the control supply voltage at AC at 50 Hz	%	10		
relative negative tolerance of the control supply voltage at AC at 60 Hz	%	-15		
relative positive tolerance of the control supply voltage at AC at 60 Hz	%	10		
control supply voltage 1 at DC rated value	V	24		
relative negative tolerance of the control supply voltage at DC	%	-20		
relative positive tolerance of the control supply voltage at DC	%	20		
display version for fault signal		red		
Mechanical data				
size of engine control device		S3		
width	mm	70		
height	mm	170		
depth	mm	190		
		scrow and shap on mounting		
fastening method	-	screw and shap-on mounting		
mounting position		With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t		
required spacing with side-by-side mounting		With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t		
required spacing with side-by-side mounting • upwards	mm	With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t 60		
required spacing with side-by-side mounting  • upwards • at the side	mm mm	With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t 60 30		
required spacing with side-by-side mounting	mm mm mm	With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t 60 30 40		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum	mm mm mm	With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t 60 30 40 300		
required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit	mm mm mm	With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t 60 30 40 300 3		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals	mm mm mm	With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t 60 30 40 300 3		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection	mm mm mm	With additional fan: With vertical mounting surface +/-90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/-10° rotatable, with vertical mounting surface +/- 10° t 60 30 40 300 3		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit	mm mm mm	Screw and shap-on mounting         With additional fan: With vertical mounting surface +/-90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         300         3		
required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit	mm mm m	Screw and shap-on mutuality         With additional fan: With vertical mounting surface +/-90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         300         3         screw-type terminals		
required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts	mm mm m	Screw and shap-on mutuality         With additional fan: With vertical mounting surface +/- 90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         300         3         screw-type terminals         screw-type terminals         0		
required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts number of NO contacts for auxiliary contacts	mm mm m	Screw and shap-on mutuality         With additional fan: With vertical mounting surface +/- 90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         3000         3         screw-type terminals         screw-type terminals         0         2		
required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts number of NO contacts for auxiliary contacts number of CO contacts for auxiliary contacts	mm mm m	Screw and shap-on multility         With additional fan: With vertical mounting surface +/- 90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         3000         3         screw-type terminals         screw-type terminals         0         2         1		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts number of NO contacts for auxiliary contacts number of CO contacts for auxiliary contacts type of connectable conductor cross-sections for main contacts for box terminal using the front clamping point	mm mm m	Screw and shap-on mutuality         With additional fan: With vertical mounting surface +/- 90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/- 10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         3000         3         screw-type terminals         screw-type terminals         0         2         1		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts number of NO contacts for auxiliary contacts number of CO contacts for auxiliary contacts type of connectable conductor cross-sections for main contacts for box terminal using the front clamping point • solid	mm mm m	Screw and shap-of mounting         With additional fan: With vertical mounting surface +/-90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         300         3         screw-type terminals         screw-type terminals         0         2         1         2x (2.5 16 mm²)		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts number of NO contacts for auxiliary contacts number of CO contacts for auxiliary contacts type of connectable conductor cross-sections for main contacts for box terminal using the front clamping point • solid • finely stranded with core end processing	mm mm m	Screw and shap-of mutuality         With additional fan: With vertical mounting surface +/- 90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         300         3         screw-type terminals         screw-type terminals         0         2         1         2x (2.5 16 mm²)         2.5 35 mm²		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts number of NO contacts for auxiliary contacts number of CO contacts for auxiliary contacts type of connectable conductor cross-sections for main contacts for box terminal using the front clamping point • solid • finely stranded with core end processing • stranded	mm mm m	Screw and shap-on mutuality         With additional fan: With vertical mounting surface +/- 90°         rotatable, with vertical mounting surface +/- 22.5° tiltable to the         front and back Without additional fan: With vertical mounting         surface +/-10° rotatable, with vertical mounting surface +/- 10° t         60         30         40         300         3         screw-type terminals         screw-type terminals         0         2         1         2x (2.5 16 mm²)         2.5 35 mm²         4 70 mm²		
rastening method mounting position required spacing with side-by-side mounting • upwards • at the side • downwards wire length maximum number of poles for main current circuit Connections/ Terminals type of electrical connection • for main current circuit • for auxiliary and control circuit number of NC contacts for auxiliary contacts number of NO contacts for auxiliary contacts number of CO contacts for auxiliary contacts type of connectable conductor cross-sections for main contacts for box terminal using the front clamping point • solid • finely stranded with core end processing • stranded type of connectable conductor cross-sections for main contacts for box terminal using the back clamping point	mm mm m	Screw and shap-on mounting With additional fan: With vertical mounting surface +/- 90° rotatable, with vertical mounting surface +/- 22.5° tiltable to the front and back Without additional fan: With vertical mounting surface +/- 10° to 60 30 40 300 3 screw-type terminals screw-type terminals 0 2 1 2x (2.5 16 mm <sup>2</sup> ) 2.5 35 mm <sup>2</sup> 4 70 mm <sup>2</sup>
